## Physical Activity

**K55.** I am now going to ask you about the time you spent being physically active in the last 7 days. Please answer each question even if you do not consider yourself to be an active person. Think about the activities you do at work, as part of your house and yard work, to get from place to place, and in your spare time for recreation, exercise or sport.

I will first ask about vigorous activities, then moderate activities, and finally walking.

So think now about all the **vigorous** activities which take **hard physical effort** that you did in the last 7 days. Vigorous activities make you breathe much harder than normal. Examples may include heavy lifting, digging, jogging, aerobics, or fast cycling. Think only about those physical activities that you did for **at least 10 minutes at a time**.

During the **last 7 days**, on how many days did you do **vigorous** physical activities?

**IF NECESSARY:** Think only about those physical activities that you do for at least 10 minutes at a time.

## Physical Activity

**K55.** I am now going to ask you about the time you spent being physically active in the last 7 days. Please answer each question even if you do not consider yourself to be an active person. Think about the activities you do at work, as part of your house and yard work, to get from place to place, and in your spare time for recreation, exercise or sport.

I will first ask about vigorous activities, then moderate activities, and finally walking.

So think now about all the **vigorous** activities which take **hard physical effort** that you did in the last 7 days. Vigorous activities make you breathe much harder than normal. Examples may include heavy lifting, digging, jogging, aerobics, or fast cycling. Think only about those physical activities that you did for **at least 10 minutes at a time**.

During the **last 7 days**, on how many days did you do **vigorous** physical activities?

**IF NECESSARY:** Think only about those physical activities that you do for at least 10 minutes at a time.

Examples may include carrying light loads, gentle swimming, cycling at a moderate pace, or social tennis. Do not include walking. Again, think about only those physical activities that you did for at least 10 minutes at a time.
